### 1️⃣ Open Browser

```
from selenium import webdriver

driver = webdriver.Chrome()
driver.get("https://www.google.com")

input("Press Enter to close...")
driver.quit()
```

---

### 2️⃣ Browser Navigation

```
from selenium import webdriver
import time

driver = webdriver.Chrome()

driver.get("https://www.google.com")
time.sleep(2)

driver.get("https://www.wikipedia.org")
time.sleep(2)

driver.back()
time.sleep(2)

driver.forward()
time.sleep(2)

driver.refresh()

input("Press Enter to close...")
driver.quit()
```

---

### 3️⃣ Locators (ID, XPath, CSS)

```
from selenium import webdriver
from selenium.webdriver.common.by import By
import time

driver = webdriver.Chrome()
driver.get("https://demoqa.com/text-box")

time.sleep(2)

driver.find_element(By.ID, "userName").send_keys("Prasad")
```

```
driver.find_element(By.CSS_SELECTOR, "#userEmail").send_keys("test@gmail.com")

driver.find_element(By.XPATH, "//textarea[@id='currentAddress']").send_keys("India")

input("Press Enter to close...")
driver.quit()
```

---

### 4️⃣ Form Filling

```
from selenium import webdriver
from selenium.webdriver.common.by import By
import time

driver = webdriver.Chrome()
driver.get("https://demoqa.com/text-box")

time.sleep(2)

driver.find_element(By.ID, "userName").send_keys("Prasad")
driver.find_element(By.ID, "userEmail").send_keys("prasad@gmail.com")
driver.find_element(By.ID, "currentAddress").send_keys("Pune")
driver.find_element(By.ID, "permanentAddress").send_keys("Maharashtra")

driver.find_element(By.ID, "submit").click()

input("Press Enter to close...")
driver.quit()
```

---

### 5️⃣ Dropdown & Checkbox

```
from selenium import webdriver
from selenium.webdriver.common.by import By
from selenium.webdriver.support.ui import Select
import time

driver = webdriver.Chrome()

# dropdown
driver.get("https://demoqa.com/select-menu")
time.sleep(2)

dropdown = Select(driver.find_element(By.ID, "oldSelectMenu"))
dropdown.select_by_visible_text("Blue")

# checkbox
driver.get("https://demoqa.com/checkbox")
```

```
time.sleep(2)

driver.find_element(By.XPATH, "//span[@class='rct-checkbox']").click()

input("Press Enter to close...")
driver.quit()
```

---

### 6️⃣ Handle Alert

```
from selenium import webdriver
from selenium.webdriver.common.by import By
import time

driver = webdriver.Chrome()
driver.get("https://demoqa.com/alerts")

time.sleep(2)

driver.find_element(By.ID, "alertButton").click()

time.sleep(2)

alert = driver.switch_to.alert
alert.accept()

input("Press Enter to close...")
driver.quit()
```

---

### 7️⃣ Screenshot Capture

```
from selenium import webdriver
import time

driver = webdriver.Chrome()
driver.get("https://www.google.com")

time.sleep(2)

driver.save_screenshot("screenshot.png")

input("Press Enter to close...")
driver.quit()
```

---

### 8️⃣ Mouse Actions (Double Click + Right Click + Single Click)

```
from selenium import webdriver
from selenium.webdriver.common.by import By
from selenium.webdriver import ActionChains
import time

driver = webdriver.Chrome()
driver.get("https://demoqa.com/buttons")

time.sleep(2)

double_btn = driver.find_element(By.ID, "doubleClickBtn")
right_btn = driver.find_element(By.ID, "rightClickBtn")
single_btn = driver.find_element(By.XPATH, "//button[text()='Click Me']")

actions = ActionChains(driver)

# double click
actions.double_click(double_btn).perform()
time.sleep(2)

# right click
actions.context_click(right_btn).perform()
time.sleep(2)

# single click
single_btn.click()

input("Press Enter to close...")
driver.quit()
```

---

### 9️⃣ Web Table Handling

```
from selenium import webdriver
from selenium.webdriver.common.by import By
import time

driver = webdriver.Chrome()
driver.get("https://demoqa.com/webtables")

time.sleep(2)

rows = driver.find_elements(By.XPATH, "//div[@role='row']")

for r in rows:
    print(r.text)
```

```
input("Press Enter to close...")
driver.quit()
```

---

### 🔟 Waits (Implicit + Explicit)

```
from selenium import webdriver
from selenium.webdriver.common.by import By
from selenium.webdriver.support.ui import WebDriverWait
from selenium.webdriver.support import expected_conditions as EC

driver = webdriver.Chrome()

driver.implicitly_wait(10)

driver.get("https://demoqa.com/dynamic-properties")

wait = WebDriverWait(driver, 20)

button = wait.until(
    EC.element_to_be_clickable((By.ID, "enableAfter"))
)

button.click()

input("Press Enter to close...")
driver.quit()
```
